

Alexander Seda

Stillwater, OK 74074 | alexander.seda@outlook.com | alexanderseda.com

SUMMARY

Computer Science graduate with hands-on experience in full-stack application development, Linux system administration, Oracle database environments, networking, and production web deployment. Experienced supporting healthcare and enterprise university systems, building and deploying production applications, and contributing to embedded satellite flight software using FreeRTOS. Strong technical foundation across C/C++, Python, Java, JavaScript, Bash, Linux, databases, and web infrastructure.

EDUCATION

Oklahoma State University

Bachelor of Science in Computer Science, Minors: Mathematics and Information Assurance

President's Honor Roll: Spring 2023, Spring 2025, Spring 2026

Dean's Honor Roll: Fall 2022, Fall 2023, Spring 2024, Fall 2024, Fall 2025

Stillwater, OK

May 2026

GPA: 3.835/4.0

EXPERIENCE

Service Desk Technician I

Stillwater Medical Center

May 2026–Present

Stillwater, OK

- Support enterprise Windows environment across a large-scale healthcare production network, including virtual desktop infrastructure (VMware/Omnissa Horizon) and thin client deployment (IGEL).
- Administer and troubleshoot access across clinical and administrative applications (NextGen, Meditech), with involvement in ongoing Epic EHR migration.
- Standardize and deploy Windows system images across the organization using internal software packaging and imaging processes.
- Diagnose infrastructure issues spanning networked hardware, print services, and physical network closet equipment.
- Operate within a regulated, high-availability healthcare IT environment requiring strict uptime and data-handling standards.

Student Worker, Database Administration

Oklahoma State University – Enterprise IT

Jan 2026–May 2026

Stillwater, OK

- Support university faculty and staff across enterprise systems including Ellucian Banner and Evisions MAPS.
- Investigate user and application issues within Oracle Database and Linux server environments.
- Troubleshoot networked printer deployment, configuration, and connectivity issues.
- Create internal technical documentation covering procedures, troubleshooting steps, and completed actions.

Coordinator / Student Math Tutor

Oklahoma State University – Mathematics Learning Success Center

Aug 2022–May 2026

Stillwater, OK

- Supervise 5–6 tutors during scheduled operations and provide guidance and performance feedback.
- Serve as escalation point for complex tutoring questions and assist with staff scheduling.
- Tutor mathematics from College Algebra through Differential Equations.
- Recognized as Tutor of the Year and Tutor of the Month.

Certified Trainer / Team Member

Chick-Fil-A

Jul 2020–Aug 2022

Moore, OK

- Trained newly hired team members across key operational positions while supporting a fast-paced, team-oriented environment.

PROJECTS

OKCubeSat Initiative — Satellite Flight Software | Oklahoma State University

- Contributed to multi-semester satellite flight software development for the OKCubeSat Initiative.
- Helped scaffold system architecture and define task structure for embedded spacecraft operations using FreeRTOS.
- Performed preliminary software design and simulation work supporting flight software development.

Senior Living Truth Series — Full-Stack Web Platform

- Designed and deployed a production website using Django with a custom content management system, authenticated administrative dashboard, and database-driven dynamic content.
- Configured cloud server hosting, domain and DNS management, and separate production and pre-production environments.
- Developed a script-based CI/CD deployment pipeline supporting application releases.

Seda Real Estate Group — Web Development & Deployment

- Designed and deployed a responsive website using Wordpress and a custom theme.
- Configured and managed production DNS through a third-party domain registrar.

Additional Development

- Developed and deployed personal blog style website using the Hugo framework.
- Developed and deployed a political campaign website using HTML, CSS, and JavaScript.
- Built a fully functional Java/Swing Minesweeper application with game logic, event handling, GUI components, and dynamic board generation.
- Installed and configured Arch Linux across multiple systems, including LUKS disk encryption, disk partitioning, EFI bootloader configuration, drivers, and system troubleshooting.

TECHNICAL SKILLS

Programming: C, C++, Python, Java, JavaScript, Bash

Web & Application Development: Django, Wordpress, Hugo, HTML, CSS, Node.js-based build tools

Systems & Infrastructure: Arch Linux, Ubuntu, Shell Scripting, Networking, DNS Configuration, Virtual Private Server Web Hosting and Security

Databases & Enterprise Systems: MariaDB, Oracle Database, Ellucian Banner, Evisions MAPS

Development & Deployment: Git, GitHub, CI/CD, Cloudflare Pages, Production & Pre-Production Environments

Embedded Systems: FreeRTOS

LEADERSHIP & ACTIVITIES

Led a 5-person student Mobile App Development team, coordinating assignments and project completion.

Student Leadership Team, Stillwater Church of Christ; led weekly Bible studies of 5–10 participants. Cowboy Marching Band, Oklahoma State University — 2 years. Volunteer summer church camp counselor — 5 years.
